INDIVIDUAL TOOLS			
(All tools include mylar disc, and spray wax for abrasion prevention.)			
Qty	1.5" Original Flat-Faced MDRS Tool - 1.5" diameter by 2" long N52 magnet with flat armor plate surface.	\$290	<u>Total</u>
	2.0" Original Flat-Faced MDRS Tool - 2" diameter by 2" long N52 magnet with flat armor plate surface.	\$340	
	1.5" Radius Axial Tool "RAT" - Dual purpose Radial Axial Tool with 1.5" diameter by 2" long N52 magnet with domed armor plate surface.	\$350	
	2.0" Radius Axial Tool "RAT" - Dual purpose Radial Axial Tool with 2" diameter by 2" long N52 magnet with domed armor plate surface.	\$390	
	"RAT" Pack - Includes both RAT tools. These tools have the full power of the magnet focused to the apex of the Armor-Plate dome and have the power to remove/improve deeper dents, wrinkle dents and crease dents. They are the only tools strong enough to use with ball set A.	\$700	

SPARE PARTS & ACCESSORIES			
<u>Qty</u>	Mag Caddy - Handmade oak tool caddy for holding all four MDRS tools, keeping them organized and within easy reach.	\$80	<u>Total</u>
	BC Call Set Organizer Box - Handmade oak box to hold the BC ball sets for easy organization and size selection.	\$80	
	Versatile Puller -By attaching this tool to the magnetic head unit of an RAT tool, it can be used like an automotive body dent hammer.	\$70	
	Mini MDRS "Tanabe Tool" - Designed to be used in smaller diameter tubing and in areas not normally accessible without disassembly. The Mini MDRS is used in conjunction with your dent hammer to remove dents in these hard to reach areas.	\$25	
	Magnetic Amplification Handle - May be used in place of the standard handle on any MDRS tool. Made of solid steel with black anodized finish and knurled for a sure grip. The MAH increases the power of any MDRS tool. 1.5" diameter x 6.0" long.	\$60	
	2 – 8" Mylar discs for abrasion prevention	\$10
